AUTOMATION STUDY

AGENCY: Patent and Trademark Office, Commerce

ACTION: Notice of Automation Study

SUMMARY: The Patent and Trademark Office invites public participation in a study for fully automating the operations of the Office. Such automation efforts are intended to modernize the PTO's patent, trademark, information dissemination and administrative management programs. The final report of this study, which is required by Section 9 of P.L. 96–517, will be submitted to the Congress on or before Dec. 12, 1982.

DATES: Written comments must be submitted on or before July 23, 1981; public hearing, July 23, 1981, 9:30 a.m.; requests to present oral comments should be received on or before July 16, 1981.

ADDRESSES: Address written comments and requests to present oral testimony to the Commissioner of Patents and Trademarks, Washington, D.C. 20231. The hearing will be held in Room 11C24 of Bldg. 3, Crystal Plz., located at 2021 Jefferson Davis Hwy., Arlington, Va. Written comments and a transcript of the public hearing will be available for public inspection in Room 11E10 of Bldg. 3, Crystal Plz. at 2021 Jefferson Davis Hwy., Arlington, Va.

FOR FURTHER INFORMATION CONTACT: Mr. Bradford R. Huther by telephone at (703) 557-1572 or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Wash., D.C. 20231

SUPPLEMENTARY INFORMATION: Section 9 of P.L. 96-517 is the basis for the development of the automation plan.

"Sec. 9. The Commissioner of Patents and Trademarks shall report to Congress, within two years after the effective date of this Act [Dec. 12, 1980], a plan to identify, and if necessary develop or have developed, computerized data and retrieval systems equivalent to the latest state of the art which can be applied to all aspects of the operation of the Patent and Trademark Office, and particularly to the patent search file, the patent classification system, and the trademark search file. The report shall specify the cost of implementing the plan, how rapidly the plan can be implemented by the Patent and Trademark Office, without regard to funding which is or which may be available for this purpose in the future."

The areas proposed for study include patent automation, trademark automation, information dissemination, integrated resources management, office automation and legal decisions. Public participation is intended to insure the maximum potential for all automation opportunities to be addressed. Following the identification of automation opportunities, alternative approaches to support them will be developed and the feasibility costs and benefits associated with each will be determined.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
